

PVC STRIP CURTAIN

Standard clear

Polar strip

Ribbed strip

STRIP DOORS

Flexible PVC strip doors provide the most cost effective, fast flowing, safe, and simplest solutions to protect people in their working environment from outside weather conditions. They are excellent barriers against draught, noise, dust, bugs, birds and other nuisances. Strip doors are easy to install and maintain. Strips give you clear vision for safe, easy and free traffic flow as well as daylight saving.

FLEXIBLE PVC STRIP QUALITY

From a wide range of flexible PVC strips available, choose the right strips according to the application :

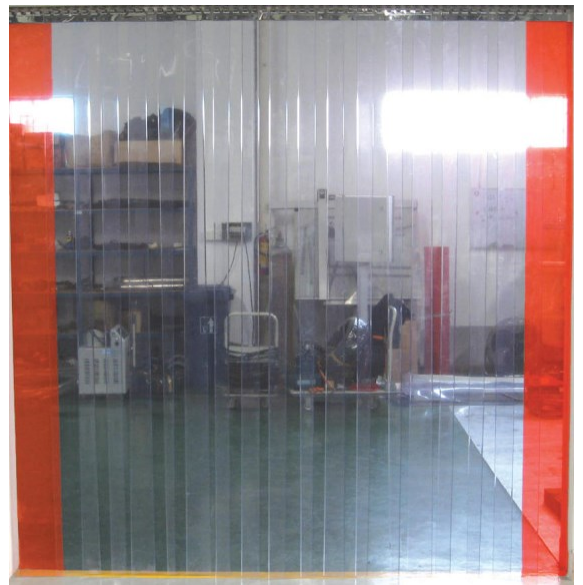

- For temperature & noise control.....Standard clear
- For cool rooms.....Polar & Super polar
