

Carlisle Super Vee Band

Carlisle Super Blue Ribbon classical vee belts banded together to eliminate belt whip and turnover on drives with high shock loading. Will fit into standard multi groove pulleys. Oil and heat resistant and static dissipating. Available in B, C, D, and E sections, with up to 5 belts per set. Can be used in sets of 2 or more belts.

Carlisle Gold Label Cog Band

Carlisle Gold Label banded belts offer the same benefits as single Gold Label belts. Raw edge construction reduces drive slip, giving greater drive efficiency. Banded construction eliminates belt turnover. Gold Label Cog bands will fit standard classical vee section pulleys. Available in BX, CX, and DX. Gold Label cog belts are heat and oil resistant, and static dissipating.
